MATHESON & Co.

HE HONGKONG FIRE INSURANCE COM PANY, which expires by effluxion of time in a few months, having proved a highly successful undertaking, it has been determined by a large number of its shareholders to form a permanent Company, under the same management and with increased Capital.

alt is proposed to register the Company under the Limited Liability Ordinance. and the amount of the Capital having been fixed at Two Millions of Dollars, it is considered that Insurers will be amply secured thereby, while at the same time each shareholder will know the extent of his individual liability. The capital proposed to be called up amounts to a large sum, and provision will be made for the creation of an ample Reserve Fund, which will, it is expected. in a very short time accumulate to an THE Interest and Responsibility of Mr | amount practically to give the fullest secu-WILLIAM NEILSON in our Firm ceased | rity both to Insurers and Insured, irrespective of the unpaid Capital

Mr Tobias Pim, Mr William Nisber It is intended to auticipate the terminafrom and after the 31st December next, and measures are being taken for that purpose. In anticipating a successful career for the New Company, it is only necessary to present to the public the results of the Old Company since its establishment in May 1866, as exhibited by the following figures:

The total premiums collected from the 11th May 1866 to the present time, a period of only two years and five months, amount to\$304,727.72 The losses which have been paid within the same period

and include the large sum of \$85,270 lost by the Fire at Hongkong in Nov. 1867. The amount now at the Credit of the Working Account, after paying all Expenses and Re-insurances to date.

These figures fully warrant the mos sanguine expectations of success, and it is but reasonable to expect that, strengthened with larger Capital, the present undertaking cannot fail to prove at least as successful as the former one. The Old Company when it entered the field, had to create a business for itself, but the New one, in taking over the outstanding risks and connections of the Old Company, will at once receive a very large amount of premium and enter on a profitable and organised business. Moreover, there is no doubt that the risk of Fire in Hongkong has been greatly diminished by the Building Regulations now in force, and by the establishment

of a Fire Brigade. . The following are the main features of the New Company:-

1. A first Call of \$100, to be paid upon each share on allotment, and a further Call of \$100 to be paid in Six Months all further Calls to be determined upon at General Meetings of the shareholders. Interest at 12 per cent per annum to be in the first instance allowed on the paid up Capital, such Interest to be payable half-yearly, on 30th June, and 30th December. The profits after deducting the said Interest to be applied thus :- 20 per cent, pro rata, amongst such of the shareholders as shall have contributed or influenced business to the Company, and the remainder in forming a Reserve Fund

When such Reserve Fund shall have been accumulated, the payment of Interest to cease, and the profits to be applied thus: -20 per cent to be distributed as already mentioned amongst the share holders who shall have contributed business to the Company; 30 per cent, to the augmentation of the Reserve Fund until it shall reach \$1,000,000, at which figure it is to be permanently maintained; and the remaining 50 per cent to be distri-

buted by way of dividend amongst the shareholders generally. 4. No shareholder to hold more than 250

The Company to be managed by General Managers, with the assistance of a Consulting Committee. The Funds of the Company to be deposited in Banks or in Government Securities approved of by the Committee. Over one half of the entire number of

shares has already been taken up. The following is the form of application for shares, which should be filled up and signed by the applicant and left with the for any Goods Supplied without such General Managers of the Company. Hongkong, 23rd November, 1868.

To the General Managers of the "Hongkong Fire Insurance Co., LIMITED," [Address of applicant and date.]

HONGKONG, MONDAY, DEC. 14, 1868.

THE Shanghai Courier makes an an-

nouncement which, if founded on fact, is strikingly illustrative of some recent remarks we made upon "the thin edge of the Customs' wedge." We therein pointed out the quiet manner in which. taining not merely for himself, but for the Customs service generally, a political po- There is a prospect, we understand, of a sition infinitely higher than that contemplated by Mr Lay even in his most ambitious moments. The latter gentleman was at least perfectly open and he desired to hold, and, thereby, would have deprived his policy, if successful, of one dangerous element as regarded foreign influence generally. But Mr Hart, wiser head of a financial department, and over succeeded in attaining a position to which that of Mr Lay in his most flourishing days was but second rate. And we now learn that the commanders of the new gunboats recently ordered for China are "to receive their commissions direct from Pekin." The phrase of course bears two meanings. "From Peking" may mean "from Mr Hart" or "from the Military board:" but there is little need to question which of the two is correct. M Hart would doubtless take care that the commissions were ostensibly from the Chinese alone, but if the nominations are made by Customs, and not Consular or the imputation of having managed the

business to suit his own views. We were always of opinion that the Lay-Osborne fleet, under the conduct of doubtless ambitious but strictly honorthe world, would have been a success. But we cannot view with satisfaction the assumption by Mr Hart of the posi tion aimed at by Mr Lay, while he is ostensibly unconnected with the matter. If he were to stand forward and say " alone am responsible." foreign Ministers would at least have a tangible head, in the shape of a foreign official, to deal with. But as secret military and naval adviser of the Chinese, they can say and do nothing against him. Again, we can only warn him that he must beware of the opposition such a policy excites. His most prudent step will be to place the selection of the foreign officers of any steamers purchased for imperial purposes in the hands of the foreign Ministers.

BUPPOSED THIEF SHOT Union Dock Company's black watchmen about one o'clock this morning. Robberies! at the Company's premises have been most unpleasantly frequent, so much so that a number of policemen were lately stationed there: while alarms have been without number, and shots have been more than once fixed by both police and watchmen unpunished. So far as we can learn, three row. Chinese thieves had come on shore in a small boat, with the purpose of stealing coal, about a hundred tons of which are lying about the premises; and it would seem that they had got what they wanted and had shoved off, when the black watchman fired. P. C. 66 (Gowan), upon hearing the report, made his way to the spot, and after a search, he found the wounded bleeding body of the Chinaman in an unoccupied fisherman's but about half a mile to the east of the Dock, while the boat, which was a pool of blood, was hauled up on the beach. Doubtless, the thieves had hurriedly deposited their wounded companion in the hut, and then escaped over the Hill. The wounded man was sent at once to Hospital, but he died a few minutes ere he arrived there. Wounds by a sort of duck shot, the contents of the watchman's musket, were scattered all over the dead man's buttocks, causing great loss of blood and ultimate death. TO-DAY'S POLICE.

Both Magistrates sat to-day. Charles Allen, a seaman of the U. S. While being led along to a chair. Allen suddenly resuscitated, and Diplomatic selection, he cannot escape the district watchman as suddenly got "floored;" a constable who was called also got knocked down, and the D. JAPAN.

(Japan Gazette.)

The Mikado, who is acknowledged by all men. Japanese and foreigners, to be supreme, arrived last week at the ancient capital of the Tycoons. Yedo, to which another name. Tokei, has been given. Such an event as the Mikado visiting any distant part of his dominions, has not been known, say the Japanese, for upwards of twenty centuries; and even although it is a fact that he is: now safe in Yedo, there are many natives who declare the whole affair to be a fallacy and a delusion.

In a literal sense His Majesty finds the city swept and garnished. Four weeks ago, it was nearly emptied of daimios and their two-sworded retainers: multitudes of the merchants and shopkeepers had left; and the palaces of many of the greatest men in the country were going to ruin-all. the brouze, or other metal work, strippeds from the huge gateways; the walls crumbling; and in some instances even the woodwork being gradually carried away. At the beginning of last week, most of the exteriors of the palaces had been repaired; all the streets of the city renovated and made fit for the presence of so holy a prince as the Mikado; and now many of the yatchiskes are occupied by their own proper owners and their retainers. Such a metamorphasis can bardly be imagined by

On Tuesday last, the 24th November foreigners, having been invited by the authorities to take up a position reserved for them on the side of the high road, to witness the procession of the "immortal? who now holds the sceptre of these islands, availed themselves of the privilege, in hopes of seeing that great one. They were disappointed however; and only beheld the state norimon, or palanquin, in which he was popularly supposed to be which was empty—and a smaller norimon immediately behind it, in which he is declared to have been in reality-but which was so closely shut that no eye, that could not see through deal board, could discover him.

The expenses of the road were disbursed for the Mikado's journey in Kin Satz' (paper money), -no silver or gold. Tokei (Yedo) is called upon for money to pay a part of the Mikado's expenses; and her merchants are promised as a rewardtrade with foreigners! Those who refuse are to be debarred that pleasure and profit.

The 17th day of the Japanese mouth has passed, and the native merchants of Yokohama, trading in Tea, Silk, and Silkworm's Eggs were not ready with the 1,500 rios 6,000 boos), demanded of them by the Saibansho, as a contribution to the Mikado They offer just one-tenth.

Government declares it will stop their trade with foreigners if the cash is not forthcoming. The merchants cry out, and say, "Whilst the Tycoon was in power we thought a change might be for the better; but now, night and day, we pray for the return of the old government."

Again have we to record a fire on the Bluff. On the 25th Nov. the Yokohama General Hospital, and on the 27th the whole range of Stables and servants' houses belonging to Mr Lindau, and situate in a hollow close at the side of his new and very picturesque dwelling-house. The fire originated in one of the servants' houses; and as all were of wood, with light shingle roof, the blaze aprang up as in a moment. Fortunately there was plenty of assistance at hand, as the military from the barracks were on the spot in a few minutes. Mr water prevented any more than one small one being efficiently set to work. The wind being light and blowing seaward, prevented the flames from catching Mr. Rickerby's house, which was within a few chains of the burning stables; and although there was no supply of water available for the larger engines, the contents of several iron tanks, and an ornamental pond were sufficient to wet the thatched roof of the dwelling house, and render it safe against ignition, so long as the wind continued as it was. A party of French and English Sailors were there, and did good service. All the fine stud of Racing ponies and others belonging to Mr Lindau were easily removed from the reach of the danger, and we congratulate Mr Lindau on the fire ending where it did.

COUNT VON AT 'EM. -AGAIN.

(N. B. Handlesblad, 18th November.) We understand that the so-called Count on Attems, after his imprisonment, endeavoured to make his escape; and that he has since made the declaration that the bills drawn by him are false, and he is no count, ut the same person who under the name of Count von Schonborn, Count von Auersperz, Count de Salis, &c., travelled in Europe, to Alexandria, and to Australia, and cheated the world of thousands of pounds sterling. The crow of his yacht, after having loaded the cannon to the muzzle with gu powder, endeavoured to make their escape elsewhere. The vigilant police has nowever hindered them in time. People Europe will look upon it as rather strange that this personage should be finally unmasked in Netherlands India.

We may add that the personal appearance of the said Count does not testify against him, although he is not distingu shed by aristocratic bearing. He has more the appearance of a simple, conscientions young man, then of a finely cunning decei-Tu, who had seen a good deal of the world at the cost of the purses of his victims.

We are further informed, that an esteented traveller has lately arrived at Batavia from Australia, who is supposed to be well acquainted with the particulars of this curious history, and its hero. So that justice will be able to obtain much light from that quarter. Singular to say, the Count had the means by the sale of valuables do. to more than repay the f2,567.50 which he had thus regain his liberty; but he said he did not desire this; and was willing to remain in prison, until the validity of his bills appeared; at which time the Bank would be his debtor, for the balance of the f700 he drew for, and which remained unpaid. As soon as the validity of the bills he drew became verified, the Count said he intended to bring forthwith an action for damages against the above-mentioned Bank.
